

Tenant Vacating Guide

It is imperative that the property be handed back in a satisfactory condition, all repairs and maintenance have been attended to and cleaning has been completed.

Should there be any issues that have not been rectified and are at the cost of the tenant, this will be charged from the bond.

We strongly advise that you use our contractors to carry the cleaning, repairs and maintenance of the premises. This gives our agency trust that the work being conducted is to standard and they are working in the best interest of all parties to have the maintenance carried out in a timely manner.
